

*A quality residential home
for the elderly*

ROSE FARM
RESIDENTIAL HOME

It is our intention to create a 'home' in every sense of the word with care provided by an experienced team of loving people.

Introduction

Situated in a peaceful, rural hamlet with views of open fields to the front and rear, Rose Farm has the perfect setting for a residential home. It stands on the main road through the small village of Styrrup nestled between Bawtry and Tickhill, which has historical connections with the medieval jousting fields close by. There is good access to the A1, M1 and M18 motorways, and the towns of Doncaster, Rotherham, Worksop and Retford are all within 30 minutes drive.

The buildings have been thoughtfully and attractively converted from barns which date back to the 1700's, and by retaining their original features and character we have managed to create a warm, homely and comfortable environment for our clients. Our purpose built Dementia Unit was completed in 2002.

The home is divided into three separate areas, 'The Cottage', 'The Barns' and 'The Garden Wing', each offering independent facilities which enable our clients to have greater choice of living areas depending upon their needs and preferences. All our bedrooms, lounges, dining rooms, bathrooms and toilets have a nurse call point fitted and T.V. points are found in every bedroom. Private telephone lines may be fitted by arrangement.

Specialist Dementia Facilities

Dementia and dementia related conditions such as Alzheimer's disease and other conditions with confusion is an increasing problem for older people and causes additional pressure for families and carers.

At Rose Farm, through our many years of experience in caring for people with dementia, we understand the complex issues that families face. It is our aim to improve the quality of life for everyone affected by dementia by offering unique healthcare services. The care we provide involves trained specialists in dementia care with encouragement for family and friends to be a part of the ongoing care plan.

Our home is a bright and positive environment and there are no set visiting times. We encourage families to actively participate in care provision, for example, at meal times or by participating in social events and activities.

Our Garden Wing is a purpose built secure unit providing specialist care for clients with dementia. Our activities co-ordinator provides a program of fun and stimulating exercises.

The Cottage The Barns The Garden Wing

The Cottage

This is a small separate unit for eight residents, suitable for the more independent client who prefers a homely environment. The Cottage has six single rooms and one double room, all of which are en suite.

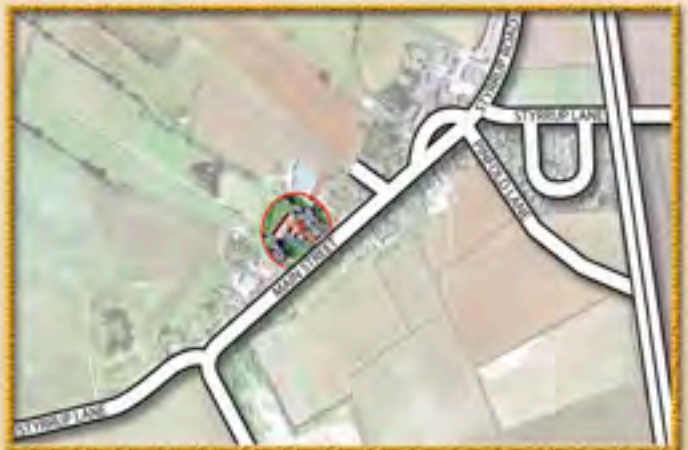

The Barns

The Barns is situated in the main building and has sixteen single rooms and one double room. This unit cares for the more dependent client as staffing ratios are higher.

The Garden Wing

This unit is also part of the main building and provides care for clients with dementia. It is a separate unit with twenty-five rooms and one double room, all with en suite facilities. There is also a secure garden area for clients to enjoy.

Please call our manager to arrange a visit. We look forward to welcoming you.
